

# *I Never Thought I Would See the Day*

Because our times have so changed since early 2020, almost everyone is breathless and almost everyone is saying the same thing—*they never thought they would see the things happen like they are happening today!*

Whoever thought an invisible enemy, a virus no less, could turn the world upside down?

Let's consider just a few of these issues.

## ***I never thought I would see the day when:***

- Prisoners would be let out of jail at the very same time Christians were being kept out of church.
- It would be so obvious why America is *not a prominent player in Bible prophecy*. Something had to neutralize us, or a series of events would weaken the superpower.
- People I admired and trusted told me they were going to report good people to authorities who weren't keeping the "letter of the law" such as proper social distancing. *Friends reporting friends? Neighbors reporting neighbors? Has love grown cold?*
- The Coronavirus would do us all a favor and [put "Drag Queen Story Hour" out of business](#) for a season!
- It would be so blatantly obvious that we are in the absolute last of the last days—in fact, the last hour—*but our pulpits still insist on being quiet about that*. For the first time, many people truly want to understand the times and how the Bible applies to them!
- [The media would call Republicans "the party of death"](#) when they just want to open businesses and save the lives of millions who are in total despair. Suicide, alcoholism, and drug abuse are soaring.

- The one institution pushing back on the despair, the church, would be declared “non-essential” but not [marijuana shops](#) or some abortion clinics.
- In just a matter of weeks, [people accepted surveillance in the name of safety](#) and security. No one questions drones, cameras, and apps watching our every move.
- Businesses that took a lifetime to build and that even spanned three generations, were destroyed in a few weeks—not just in America but around the world.
- Some cities are [asking churches to keep logs of every person who enters their building](#) so they can then be tracked and traced.
- Some churches can re-open but with limitless restrictions including how you handle communion, but Costco and Home Depot are allowed hundreds of customers with just a couple of restrictions.
- Amidst the Coronavirus crisis, many *would rush to the defense of China* who caused it all to happen!
- Vaccines, that once saved lives, would get so corrupted that they now risk lives, *yet there is talk that all Americans must get a vaccine for the Coronavirus*. Constitutional scholar, Alan [Dershowitz, says the government absolutely can “plunge a needle into your arm.”](#)
- The rugged American spirit that drove pioneers to fend off Indians, would get so diminished that many caved to the whims of politicians, who obsessed over masks and social distancing. *And we let them.*
- Two unknown doctors appeared daily in press briefings presenting their evidence to ruin our great country and it seemed like our leaders *never gathered a second opinion*. And when some spoke up to differ, *they were shut down*.

The stage is clearly being set for the Tribulation, yet most people are clueless because Bible prophecy has been deemed irrelevant and inconvenient. The world is being prepared for a demonic savior, yet the masses are not only clueless, they will run pell-mell into his arms. *He will promise to restore order out of this chaos*. He is waiting in the wings. His title is Antichrist.

*You never thought you would live to see this day either, did you?*

We’re not just end-time kooks wandering down Main Street warning about a zombie apocalypse. *We’re warning that the Bible predicted some things that would set the stage for the final moments of history as we know it*. The Church would be removed before the curtain could go up and that final dramatic scene could be played out.

That final scene is imminent. *Everything is falling into place.* Don't delay putting your faith in Jesus Christ as Lord and Savior of your life. You are not guaranteed a tomorrow to make that call.
